

Reduce risk and exposure with **payment agility.**

**Faster settlements.
Reduced risk.
Predictable cash flow.**

OBM's Real-Time Settlements minimizes risk for energy providers by facilitating daily payments, ensuring more predictable cash flow.

We've derisked over
\$39MM
in energy costs.

Core Benefits

Power your Market Expansion with Confidence:

- ✓ Enable innovation despite low customer credit.
- ✓ Manage high-risk exposure with confidence.
- ✓ Offer secure, real-time settlements for faster payments.
- ✓ Reduce collateral requirements with integrated load control.

Flexible Payment Schedules & Seamless Payment Processing:

- ✓ Daily, weekly, or monthly settlement options.
- ✓ No changes to existing accounts receivable processes.
- ✓ Automated ACH collections for effortless payment processing.
- ✓ Load control integration allows quick action when payments fail.

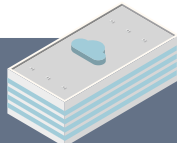

Enhanced Insights Through Unmatched Transparency:

- ✓ Real-time insights into escrow balances and payment status.
- ✓ Comprehensive transaction history available on demand.
- ✓ Full visibility and control over all payment activities.
- ✓ Peace of mind with SOC 1 Type II, SOC 2 Type II, and ISO 27001 compliance.

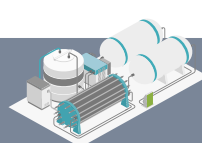

Designed for large Commercial and Industrial loads, including:

Crypto Mining

AI & HPC

Hydrogen and
Ammonia Production

OBM

Who We Are

OBM is a leader in managing scalable, energy-intensive operations. We redefine the industry with state-of-the-art solutions and operational precision, integrating leading-edge compute technologies with energy optimization to set the standard for efficiency and innovation.

Transform your payment processing with OBM.
