

## Financial confidence meets operational agility.

**Real-Time Settlements (RTS)** delivers unmatched data transparency and precision control, enabling power suppliers to implement flexible payment schedules while reducing financial exposure.

### Flexible Payment Options

- ✓ Configure daily, weekly, or monthly settlement schedules
- ✓ Maintain existing accounts receivable processes
- ✓ Leverage automated ACH collections for streamlined payment processing
- ✓ Streamline invoicing with automated processing of common billing components for faster, more reliable payments

### Grow Your Business Safely

- ✓ Expand your customer base by offering lower collateral requirements
- ✓ Maintain control over financial risk with real-time monitoring
- ✓ Accelerate revenue collection with automated settlement processes

### Power Market Expansion with Confidence

- ✓ Manage high-risk exposure with integrated control systems
- ✓ Implement secure, real-time settlements for accelerated cash flow
- ✓ Reduce collateral requirements for your customers

### Unmatched Transparency & Security

- ✓ Complete visibility over payment activities and escrow balances
- ✓ On-demand transaction history and reporting
- ✓ Enterprise-grade security: SOC 1 Type I, SOC 2 Type I

Learn how OBM helps you grow your customer base — without growing your risk.
