

Assets & Inventory

Complete Operational Control at Your Fingertips

Transform your mining facility management with comprehensive asset tracking and inventory control that eliminates downtime, reduces costs, and maximizes operational efficiency.

COMPLETE ASSET MANAGEMENT

- ✓ **Comprehensive Asset Database:** Complete overview of all hardware assets including model, serial number, location, and custom identifiers
- ✓ **Asset-to-Miner Sync:** Direct linkage between physical assets and mining devices for performance correlation
- ✓ **Operational History Tracking:** Detailed logs of every action, repair, and movement throughout asset lifetime

INTEGRATED TICKETING SYSTEM

- ✓ **Seamless Issue Management:** Link repair requests directly to specific assets for faster resolution
- ✓ **Maintenance Workflow:** Track issues from creation to completion with full audit trail
- ✓ **Performance Analytics:** Historical insights to identify recurring problems and optimize efficiency

SMART INVENTORY CONTROL

- ✓ **Automated Stock Management:** Real-time visibility into spare parts, cables, and equipment availability
- ✓ **Custom Inventory Types:** Tailored categorization with custom fields for mining-specific parts
- ✓ **Location-Based Tracking:** Know exactly where every part is located across your facility

INTELLIGENT ALERTS & TRIGGERS

- ✓ **Low Inventory Alerts:** Customizable threshold notifications to prevent stockouts
- ✓ **Proactive Maintenance Reminders:** Automated alerts based on asset usage and maintenance schedules
- ✓ **Custom Field Configuration:** Adapt the system to your unique operational requirements

Before Foreman, we were managing everything in spreadsheets. The time savings and operational visibility have been game-changing for our mining operations.

Mining Facility Operator

Adaptive cruise control for your mine.

Foreman is the industry-leading bitcoin mine management software, enabling miners to remotely manage their sites from anywhere. Foreman empowers mining operators with the automation, insights, and precision they need to optimize efficiency, maximize profitability, and reduce operational risk.

Trusted by more than 10,000 customers, Foreman enables miners to unlock energy agility, simplify operations, and grow with confidence.

ESSENTIAL FEATURES

Included with all Foreman subscriptions

- ✓ **Real-Time Monitoring & Insights** – Track hash rates, miner status, and earnings in a customizable dashboard
- ✓ **Alerts & Triggers** – Detect issues in real-time and automate fixes to minimize downtime
- ✓ **Power Controls** – Manage energy usage to enhance performance and reduce operational costs
- ✓ **Bulk Miner Management** – Apply configuration changes across thousands of miners instantly

PREMIUM FEATURES

Available as add-ons

- ✓ **Advanced Power Management** – Hands-free, automated energy management with price response, time-of-use scheduling, and demand response integration
- ✓ **Asset & Inventory Management** – Real-time visibility, proactive maintenance alerts, and integrated ticket management
- ✓ **Data & Reporting** – In-depth analytics, direct access to BigQuery datasets, and custom reporting tools
- ✓ **Security & Compliance** – Access SOC 1 & SOC 2 reports through the Foreman Trust Center
- ✓ **Managed Network Services** – Custom solutions, expert audits, and hands-free setup & support

ABOUT OBM

OBM is a leader in flexible load management solutions. We provide energy agility, operational simplicity and risk mitigation through our innovative compute management platform, comprehensive energy optimization technology, and broad energy partnerships. With a proven track record of managing loads up to 500 MW and integrating them into leading demand response programs nationwide, as well as mitigating operational and financial risk, OBM is transforming the landscape of compute-intensive operations.
