OBM | Foreman

Managed Network Services

Scalable, secure connectivity built for mining operations.

Your network is the backbone of your site. Misconfigurations, outages, or performance bottlenecks can create costly disruptions. OBM's Managed Network Services deliver tailored network design, hands-free setup, and expert oversight. Ensuring seamless performance, maximum uptime, and secure integration with your mining operation.

IS YOUR NETWORK
Ready to Scale?

From expansions, architectural shifts, and growing compute demands without disruption. OBM builds networks that evolve with your operation. Get started with a comprehensive network health check to uncover opportunities to enhance performance and scale for future growth.

NETWORK HEALTH CHECK

- Comprehensive audits to identify performance gaps and scaling opportunities

END-TO-END NETWORK MANAGEMENT

- Tailored network solutions built for high-density mining environments
- Pre-configured, ready-to-deploy hardware for faster implementation
- Hands-free onboarding, firewall installation and secure integration
- Ongoing maintenance, patching and performance tuning

ENHANCED SECURITY & INFRASTRUCTURE PROTECTION

- Next-Gen firewalls, threat detection, and intrusion prevention
- Identity & access management and SIEM tools for full visibility
- Compliance support to protect your operations and data

DISASTER RECOVERY & REDUNDANCY

- Backup solutions and failover planning to minimize downtime
- Redundant connections and contingency planning for maximum uptime
- Predictable monthly pricing for cost-effective, scalable support

24/7 MONITORING

- Continuous oversight to identify and resolve issues before they impact uptime
- Real-time alerts and performance reporting

OBM | Foreman

Adaptive cruise control for your mine.

Foreman is the industry-leading bitcoin mine management software, enabling miners to remotely manage their sites from anywhere. Foreman empowers mining operators with the automation, insights, and precision they need to optimize efficiency, maximize profitability, and reduce operational risk.

Trusted by more than 10,000 customers, Foreman enables miners to unlock energy agility, simplify operations, and grow with confidence.

ESSENTIAL FEATURES

Included with all Foreman subscriptions

- ✔ **Real-Time Monitoring & Insights** – Track hash rates, miner status, and earnings in a customizable dashboard
- ✔ **Alerts & Triggers** – Detect issues in real-time and automate fixes to minimize downtime
- ✔ **Power Controls** – Manage energy usage to enhance performance and reduce operational costs
- ✔ **Bulk Miner Management** – Apply configuration changes across thousands of miners instantly

PREMIUM FEATURES

Available as add-ons

- ✔ **Advanced Power Management** – Hands-free, automated energy management with price response, time-of-use scheduling, and demand response integration
- ✔ **Asset & Inventory Management** – Real-time visibility, proactive maintenance alerts, and integrated ticket management
- ✔ **Data & Reporting** – In-depth analytics, direct access to BigQuery datasets, and custom reporting tools
- ✔ **Security & Compliance** – Access SOC 1 & SOC 2 reports through the Foreman Trust Center
- ✔ **Managed Network Services** – Custom solutions, expert audits, and hands-free setup & support

ABOUT OBM

OBM is a leader in flexible load management solutions. We provide energy agility, operational simplicity and risk mitigation through our innovative compute management platform, comprehensive energy optimization technology, and broad energy partnerships. With a proven track record of managing loads over 500 MW and integrating them into leading demand response programs nationwide, as well as mitigating operational and financial risk, OBM is transforming the landscape of compute-intensive operations.
